MEMPHIS APPEAL.

THURSDAY, : : MAY 27, 1886 HOW THE BLUFF MAY BE SAVED.

The bluff may be saved, but it must be saved by the owners of the property jeopardized by the hourly assaults of the impetuous river. The government cannot be a ked to do anything. Every person, therefore, who owns land on Tennessee street, as well as those fronting on the river, should subscribe, and upon a bas's to be agreed upon that will securs a fair pro rata according to the value of the lots jeopardized in each case. And the amount of this subcription should be decided upon while the engineers are preparing their plans, so that work may be begun without delay so soon as the river goes down. There is not a moment to lose.

ANOTHER RAILROAD.

Ex Congressman C. N. Lamison of Ohio, was in the city yesterday accompanied by Mr. Anderson, a well known railread engineer of New York, for the purpose of initiating a new line of railroad from Memphis to Girard. Kas., with a view ultimately to extend it to Nebraska and drain the grana ries of the great Northwest. Col. Lamison represents the Bryce-Thomas syndicate, which a few d ys ago accomplished the purchase of the who'e of the East Tennessee, Virginia and Georgia system, including the Memphis and Charleston railroad. This syndicate has \$10,000,000 at its disposal, and with it proposes to build the above mentioned line to Kansas and bridge the Mississippi at this point. Th's done, the farmers Kansas and the Northwest will find a continuous line to New York, and the roads mentioned connecting with of Corinth, Mise. the Richmond and Danvi le, the Shennandoah Valley, the Cumberland Va ley and the Peansylvania railroads. And thus we have another proof that Memphis is to be in the near future Southwest, and that the most wideawake 12 lroad men, seeing this, are that will increase its railread facilities and make it so beyond the perad-

THE MISSISSIPPI BIVER.

venture of a doubt.

Sera'or Van Wyck of Nevada was just the man to make the report that we publish in another column from the Sena'e Committee on the Improvement of the Mississippi River. His ignorance of the river fitted him for the duty. It is a tissue of misstatements and absurdities so glaring that any one at all informed as to the great river will see them at a giance. The Eads jetties have proven a great succase, and the decrease in the commerce of New Orleans, if any there be, is due to the port charges friends, so many that they have inand the grossly mismanaged municipal government that has hindered and hampered the growth of that city, and all but stamped the life out of it. The Lake Borgne ontlet scheme is a State. job, a job with plenty of prefit in it. It is a scheme that every Southern Senator should vote against, especially those from Tennessee, Kentucky, Missouri, Arkaneas, Mississippi and Lonisiana. The methods of river improvement now being prosecuted under the engineers of the army are, with the levees built by the States, giving the utmost satisfaction, and it continued must assure the safety planters need and the depth of water esential to continuous navigation from St. Paul to the jettle , save when the ice closes the upper river. Van Wyck's bill ought to be killed.

SUNSHINE PRIENDS.

As the doors of the penitentiary closed upon Jachne the last words he uttered was an execration of the ingratitude of his friends. So long as he made money by melting down allyerware which had been stolen from honest people, and by a cepting bribes as A'derman of New York, he was regarded as the prince of good fellows, and his friends were numerous. But se his popularity waned so did his friends. When he was first arrested his friends who had profited by his liberality, and hoped to be recipients of other favors, clustered around him, but they deserted him in the same proportion that he needed their sympathy. He went to felt relieved when he was removed from their presence. Ferdinand Ward, ms ortures which overtook the Grant
family, gives the same experience. He
expresses no unkindness of the judge,
the lawyers and the witnesses that
the lawyers and the witnesses that
the lawyers and the witnesses that

Carina were welcomed with great duction of priors for talance of the potential potential accounts. who so subcessfully engineered the

convicted bim, but he is terrible in the demunciation of those who, after profit'ng by his schemes, shamefully deserted him. While he was regarded on the Napoleon of the financia' sharpers everybody was his friend; but the crash came, and the friends who were enriched by him were the first to desert their benefactor. Jim Fisk, previous to his death, and when his fortune had nearly been squandered on his friends, often dwelt on the ingratitude of the world. There is a moral to be drawn from the uiterof Ward, Jaebne and ances Fisk. In the days of their treacherous prosperity they had many friends who fluttered around them as do butterfl'es and humming birds around a beautiful flower. When they were supposed to be wealthy men, when they seemed to be possessed of great riches and large influence, multitudes of those who fancied themselves to be within that limited social region described by the indefinite and elastic term "first circles," buzzed about them like swarms of insec's. But they were dropped when the bubbles burst. There was nothing of the magnetism of strong moral characters, of brilliant intellectual g is, of broad cultivation of anything which forms the basi of an enduring attichment. They had only money, and that made by dishonesty. When it disapp ared so did their friends. This was to be expected; but, for mere shame's sake, somebody who had accepted their hospitality, or who had been enriched by their as ociation, ought to have stod by them in the hour of trouble. But they did not and never do.

DECIDED AT LAST. The Supreme Court Decides the McNairy County-Seat Removat Case,

West Tennessee Whig: The Supreme Court on Saturday decided the celsbrated McNairy county-seat removal case, about which so much has been said, and a history of which the Whig published some months ago.

The court, in au elaborate opinion by Judg Cooper, affirms the decree of Chance for Nixon, holding the action of the County Court in ordering the county sat removed to Fa'con void, and the rosult is Purdy remains the county reat. The court adheres to its ermer decision to the effect that article 10, section 4, of the constitution requires an active concurrence, and not a pusive acquescence, and therefore that two-thirds of the qualified vote:s of the county must actual y vote in favor of the removal; also that the action of the County Court in counting the vote and declaring the result of the election is not final and conclusive, but may be impeached by a bill in equity by the citizens and taxpavers county, and be shown to be false by evidence alcunde, and that this may be done and relief be granted, although pending litigation the removal of the courts and county offices may have en consummated

The successful litigants were represented by Messrs Pit's & Hays of this shortest on the continent, by the rail-Campbe'l of this place and Coi. Inge

The June term of the County Court will be held at Pardy.

Brapped Bead,

THE LABOR SITUATION.

THE PRINCIPAL TOPICS WHICH WILL BE CONSIDERED

By the Knights of Labor Convention at Cleveland-Powderly's Good Advice.

CLAVELAND, O., May and last last chichts of Labor were up late last Knights of night, and, in consequence, it was rather late this morning before they were astir. It was 9:20 o'clock when Mr. Powderly left the hotel and it was 10:40 o'c ock before the general assembly was rapped to order by the the delegates congregated in groups in the hall and corridors discussi g lab r topics. When the call for the onvention was issued by Mr. Powderly he only enumerated five cause complaint that were to be adjusted. There were boycott, strikes the Southwest troubles, the relation of Knichts of Labor to other organi zations and the instituting of nev semblies. Since the delegates have arrived many of them have plans that they would like to

SPRING UPON THE SPECIAL SESSION. Whether these will be discussed or laid upon the table, cannot be deter-mined as yet. One of these plans is to agitate the subject of th government regulating the railroads. A member of the order from Allegheny, Pa, has prepared a long address upon this subject, and the delegate from his disthis t-ict will try to secure a hear ng for h m. The gentleman's address also deals with the project of a National Arbitration B ard. Another matter was made public by free discussion this morning. For some time past the Executive Board have not been satisfied with s me of the organizers of the order, and several have had c arges pr ferred against them, and their commissions recal'ed. A num ber of organizers are not giving satisfaction; so, to prevent hard feelings by removing these men, it is proposed have the commissions of every organizer, from the chi f down, recalled.

A reporter asked MR. RICHARD TREVELLICK, the chief organizer, about the m tter, and that gentleman said: "It is true that such a plan is being agitated. Much of the trouble in the order is rising from rapidly increasing membership and the installation of our assemblies is due to poor organization. It is not the fault of either Mr. Powderly or the Executive Board. making appointments they must rely upon the recommendations of the dis-trict assemblies. They do not, cannot know all the men recommended and appointed. A few weeks ago I met an organizer, who, I regret to say, was under the influence of liquor. I ssked him where he was going and he informed me that he was going to institute an assembly of five hundred striking Polacks and Hungarians. This is against the rules of the order, as we can admit no strikers while they are out. I told him so, but he replied that he had a commission as organizer, and would do as he pleased. I told him he could institute the Asembly and it would never receive a charter. Only a few days ago, at a reception tendered me by ladies, an organizer was intoxicated. We need sober, industrous, representative men in these positions. It would make had feelings to ask for their commis-It would make sions, so it is proposed to make them ante up from the chief organizer down. This c n be done by Mr. Powderly alone, by the Executive Board, or by the Executive Board under instructions from the General Assembly. The best way is the latter. and so I think that it will be done in that manner. New organizers will be commissioned as fast as possible, and will be selected because of their fitness

for the position ' THE CONVENTION HALL

on either side is lined with tables, at the Chickasaw Messenger, better known as "Wool Hat," is sojourning for a of the room, facing Onterlo street, between two windows, is the chair of the Master Wor-man. Secre ary one of which he sits, at the next two assistants and at the third toe stenographer. At the opposite end of the hall is the chair of Richard Griffiths of Chicago, General Worthy Foreman of the order, and next is Mr. Powderly in office. The first business of the morning session was the acceptance of the report of the Committee on Credentials. The de e-gate were then admitted to the had and the obligation administered. Delegates were admitted only from such districts as were represented at the convention held last year in Hamiton, Ont., this being a special session of that general as embly, and dis-tricts since instituted not being elible to membership in the existing

ME POWDERDY'S ADDRESS

body. was then delivered extemporaneously. He referred the delegates to the call to learn what business was to be brought forward, a d, taking up the five subjects of strikes, boycotts, labor troubles, differences with the trades unions and the increasing membership, one by one, he salvised most careful thought and full discussion upon all questions. He asked that harmony, prudence and discretion should predominate in all matters, and that the affairs of the convention should be acted on with consideration and dispatch. The best part of the address, treating of makers entirely within the province of the order, can not be made public. Mr. Powderly resumed his seat amid prolonged applause, and upon motion appointed a standing committee of five upon each of the following subjects: Laws, a rikes, boycotts, relation of Knights

of Labor to other organizations. A special committee of five was ap pointed, to whom was referred the addresses of the president and secretary of the National Woman's Chris tian Tempera ce Un'on.

A committee of five was also selected to take action upon the matter of the organization of the American Manufacturers' Union, as proposed by Mr. Edwin Morton in his address on Tues-

At eleven o'clock the convention took a recess until 8 o'clock to-morsow morning, so as to give ample time to the committees to do the work laid

Wintersmith's Chill Cure.

Wintersmith's Chill Cure.

Orrice of the Counter Journal.

Dr. Wintersmith, Sir-I saives the lave ebserved for many years, the value of your remedy prompting me to say, in reply to-your reguest, what I know of your chill Cure. The private assurances of its effects I had observed on Mr. R. W. Meredith, who, for more than litteen years, had been foremen of my office, induced me to test it In.

my family. The results have been entirely satisfactory. The first care was of two-years' standing, in which I believe every known remedy had been including the more representative and there has been no recurrence of them for more thansix months. The other case was of a midder form, and yielded more readily to other remedies; but the chills would return at intervals until your medicine was used, shoe which time, now several months, they have entirely disapseared. From the opportunity I have bed toludge, I do not heating to valuable specific, and performs all your promise for it. Respectfully.

ARTHUR PETER & CO., Agents, Louis-ville, Ky.
